SAMPLES.

Hawthorne has several fast horses
The almanacs say that Spring begins to-day.

Judge Crocker and P. M. Bowler are in Carson.

Miles Finlen has gone to Montana. Poor Montana.

Take a chance in Mrs. Brazzanovich's piano.

Wm. Robson of Candelaria was in town yesterday.

A fine lot of Spring dry goods just received by J. Levy.

Charley Kimball returned last Wednesday from Tidewater.

Wesley Worley, foreman of the Lapanta, was in town last week.

Pat Reddy will defend Judge Terry for assaulting the U. S. Marshal.

The usual weekly shipment of Mt. Diablo bullion went below yesterday.

Bob Wright has just received a lot of the latest novels by popular authors.

The Reno Journal wants to know the whereabouts of lost Charley Ross.

A new invoice of the hats just received at O. F. Taylor's. Call and examine.

Judge Rising has decided for the Found Treasure in the case recently tried in Elko.

Mason Valley potatoes, the finest in the world, are being offered for sale at \$10 per ton, with few buyers.

Fifteen men are working at the Palmetto mine, and five additional stamps are to be added to the mill.

The abbreviation for the new State of Montana is to be Ma. We now have a ma and pa (Pennsylvania).

The jury in the Potts murder trial at Elko found Potts and his wife both guilty of murder in the first degree.

Hon. J. I. Wilson has been appointed by Governor Stevenson as a Notary Public to reside at Pine Grove, Esmeralda county.

In the race for the Mint Superintendency Sam Wright of Carson has the pole, with ex-Governor Kinkaid a good second.

Syl. Light and Lige Ellis have completed their lease on the Hartford. Work is suspended pending negotiations for a new lease.

Senator Stanford gave a dinner to sixteen friends the other night in Washington at which strawberries were served that cost \$30 a dozen.

The names of over 100 men are now on the pay rolls of the Pioche Co. and Yuba Mining Companies, and upwards of \$10,000 per month disbursed.

A private letter from Pine Grove says there is a well developed case of small-pox at that place. The victim is a man named Kendall, lately from Missouri.

The lawns in town are beginning to assume a verdant hue and the trees are bursting into bloom. Late frosts will probably nip a great many things hereabouts.

Dr. Bishop of Reno has sent 50,000 grape-vines for planting on his East-side desert location under the Inyo canal. The cuttings are all from the neighborhood of Newcastle.

Inyo Independent: Bishop has three big teams on the road to Mojave; Big Pine and Independence have teams making regular trips. What is the with Lone Pine starting a team?

St. Patrick's day was observed in Hawthorne by most of the people wearing green bows and badges. Many of the boys tried to drown themselves in beer, but were rescued.

Train No. 4 north from Keeler, was wrecked at Belleville on Tuesday of last week, the engine and two cars being ditched. Nobody hurt. A wrecking train was sent down from Hawthorne to clear the track.

Jim Townsend observed St. Patrick's day by printing his paper on orange colored paper last Saturday. He will probably print on a green sheet on the anniversary of the Battle of the Boyne. And then the frieze will fly.

Mason Valley ranchers have been feeling rather blue about the water supply for this Summer. Until the storm of last week there was not a particle of snow in the mountains at the headwaters of the Walker river. There is not a great quantity now, but probably sufficient to insure a good first crop.

Religious Service.

Rev. Mr. Sanford of Carson will hold religious service in Urquhart Hall next Sunday morning at half-past 10 o'clock; also evening service at 7 o'clock. A cordial invitation is extended to all.

The Mt. Diablo.

Following is Superintendent Shockley's weekly report of operations at the Mount Diablo:

The north crosscut between the fifth and sixth levels is in 9 feet, and the formation is favorable. We are raising from the slope between these levels to the fifth level in order to help ventilation. The slope above the fifth level near the No. 1 winze is now nearly worked through to the intermediate between the fourth and fifth levels, but we still have considerable ore showing. The ore in the east drift in this intermediate has nearly all been cut off by a slip, but there is a little ore yet showing. The east drift between the third and fourth levels shows a small amount of ore. The west slope between these levels is giving a little \$50 ore. We are prospecting in several places between the second and third levels, but have nothing noteworthy yet. The slopes between the first and second levels show no change. We have started a south crosscut from the intermediate between the east drift on the first level and are also making an upraise on a small ledge in this drift. A south crosscut that is now in 43 feet is being driven above the first level.

The mill has been running steadily during the week and crushing a good deal of ore which is being worked to high percentage.

W. H. SHOCKLEY,
Supt. and General Manager.

Arbor Day.

We are in receipt of the following proclamation, issued by Governor Stevenson:

Whereas, By an Act of the Legislature of this State approved February 10, 1887, Arbor Day is established and made a holiday for the public schools; and

Whereas, By the terms of said Act the Chief Executive is requested to make proclamation of said day thirty days prior to its observance.

Therefore I, C. C. Stevenson, Governor of the State of Nevada, do hereby proclaim and set apart Friday, April 12th, 1889, as Arbor Day, and earnestly request its observance throughout the State, especially by all teachers and pupils of the public schools, and that said Act be read by teachers to pupils, and its wise and salutary provisions explained.

If heartily and properly observed, the same may be rendered exceedingly beneficial in many ways. The planting and raising of shrubs, vines and trees may be made peculiarly profitable, and in addition thereto great benefit may arise from so doing by reason of the climatic and sanitary effects to ensue.

Let the day be well and faithfully observed.

C. C. STEVENSON.

A Profitable Business.

Those who take an agency for a reliable enterprising house, learn their business and stick to it, "get on" in the world. People who have any idea of engaging in any canvassing business will do well to write George Stinson & Co., Portland, Maine—the great art and general publishers. They offer the most exceptional advantages to those who are sufficiently enterprising to be willing to make a push in order to better their condition. It costs nothing to try. Women make successful canvassers as well as men. Full particulars will be sent to those who address the firm; their full address is given above.

High Rollers.

The biggest game of "stallion" poker ever played in Kansas City took place at the Midland Hotel recently. The game was between J. Schwartz, a well-known jeweler, and John Davis, a stockman and former member of the city government. The ante was raised from 25 cents to \$1,500. Schwartz lost \$52,000 on a pair of nines, and \$10,000 on a pair of trays. After several hours' play Davis held his opponent's check for \$82,500. Then the luck changed and Schwartz quit the game only \$8,000 behind. Both men are well-known in business circles and are both able to pay the stakes.

The New Judge.

The Governor has appointed his present Private Secretary, Judge Thos. H. Wells, District Judge of the Fourth Judicial District, under the bill passed by the Legislature. This appointment is generally commended by the legal fraternity throughout the State. The territory assigned to the new Judge is not yet known, as the four Judges will district the State to suit their own convenience.

Edward G. Stevenson, the Governor's son, was appointed Private Secretary.

Send to the BULLETIN for Job work of every description.

Notes from Gullis Mountain.

At the present time but little can be said of Gullis Mountain District.

The working force is small, but two tomcats and five men remaining in the district.

F. M. Chipman and — Berry are extracting high-grade ore from the Annie mine.

Allen McCormack and Jos. Pierce have a shipment of ore in readiness for the reduction works.

Wameset & Revard Combination Tunnel work is now being done to satisfy the law of annual expenditure.

Many of the best mines are lying idle. Numbered with this class are the Hidden Treasure, Burnley and Alps.

Annual assessment work is about all that will be done in this district until there is a "living marginal advance" in the price of silver. Meanwhile the grass will be short with the miner.

Z. LYFORD.

Middlesex, March 16.

A Dreadful Prophecy.

The Winnemucca Silver State says: The Piute Princess, Sarah Winnemucca, is in town. She says a prophet has risen among the Indians at Walker Lake and is creating some excitement among the ignorant and more credulous Piutes. He says the spirits of all the Piute warriors who have died in the last five hundred years are to return to earth and resume their old forms. They have condemned the whites and the Indians who write or speak their language or adopt their customs, and will exterminate them from the earth.

The Princess, who speaks English fluently, and is quite an intelligent woman, laughs at the dire prophecy, and does not believe such nonsense, though some members of the tribe do.

Notes from Bodie.

We take the following Bodie items from the Homer Index:

Plenty of snow, dead loads of it, and more coming.

Mr. Burroughs of Sacramento has assumed the position of chief engineer of the Lent shaft. Mr. Reese, who has been filling the position temporarily, will return to his post as engineer on the Bodie and Benton Railroad, which will resume operations in about a month.

Frank Doten will have his big teams on the road by the middle of next month.

A. C. Cabel, who has been foreman of the Bodie mine for the past four years, has resigned and will leave shortly for Mexico. D. W. Stickney takes his place.

The Parrot was Lonely.

The editor of the Solid Muldoon visited Salt Lake recently. Here is one of the stories he tells in his paper:

We sat in a dark corner of the verandah of the Continental hotel, Salt Lake City, and overheard the following conversation which emanated from room No. 32:

First Voice—Clara, this is bliss! (Kisses.)

Clara—Algy, this is heaven! (More kisses.)

Parrot (in cage)—Get me a bird, quick. This is h—ll.
